

### Introducing Friends' Board Member and Past President Kurt Fredriksson

After a 30-year public service career with the State of Alaska, Kurt retired as Commissioner of Alaska's Department of Environmental Conservation. While working for the state Kurt was fortunate to travel across Alaska and experience its spectacular landscapes, diverse cultures, and rich history. Sharing Alaska's unique features with others is important to Kurt. He also appreciates how important the APK building is to keeping Juneau Alaska's capital city. He volunteered to join the Friends of the State of Alaska Library, Archives of Museum Board of Directors in 2019 and helped to establish the Forever Friends endowment fund in partnership with the Juneau Community Foundation. He currently chairs the FoSLAM Board's Development Committee which works to recruit new Board members. If you are interested in joining the Board please contact any board member or send an email to [info@foslam.org](mailto:info@foslam.org).
